

Paul Gibbs MBBS, FRCS(Eng), MD Consultant Surgeon

Paul Gibbs qualified at Charing Cross and Westminster Medical School, London in 1992. He did his higher surgical training in Wessex, 1997 to 2004, which included an MD in renal transplant immunology. Paul has worked in renal transplant units in Cardiff, Oxford and Portsmouth before being appointed as a vascular and renal transplant surgeon in the Wessex Kidney Centre, Queen Alexander Hospital, Portsmouth in February 2005. Since his appointment he has been the Clinical Director of the Renal Transplant Programme, Clinical Lead for Vascular Access and an active trainer for both undergraduate and postgraduate trainees. He is now Care Group Director for general surgery. Paul is currently VASBI president, a trustee of the altruistic donor charity "Give a kidney", a member of the BTS Chapter of Surgeons committee and sits on the BTS ethics committee. He has clinical and scientific research interests in both renal transplantation and vascular access.
